

The StayPut PER<sup>®</sup> (Polymer Environmental Resin) is an eco friendly patented material which offers a flexible range of fabrics and matting that is ideal for domestic and commercial use.

**Certification:**

The fabrics are all made from a non toxic resin which is free of rubber and latex, odour free and does not emit any toxic chemicals or gases, the polymer environmental resin is melded onto a mesh, supported by polyester fibres resulting in a lightweight open weave construction. The mat has been successfully tested against harmful substances; OEKO-TEX Standard 100 - Product Class 1(for baby articles).

PER<sup>®</sup> conforms to the following standards:

- Oeko-Tex Standard -100 Product Class 1 (for baby articles) – TPVO 043943
- Japan ST Toy Safety Testing Standards – 070202052-4
- Food Grade; FDA Certified United States FDA Testing Standards – SGS CY-2007 – 10529B
- Toxic Heavy Metal Free – SGS UG-2008 – 20035A -03
- Phthalate Free – Does not contain PVC or Toxic Metal – SGS UG-2008-20035
- European Union PAHS Subject Content Standards – TUV 113073454
- ROHS Standards – SGS CE-2007 – C8168
- European Commission (EC) – Reach
- Biodegradable - PIDC Test 2005 -08-18

PER<sup>®</sup> is also:

- Fire Retardant & UV Stable

PER<sup>®</sup> features:

- Cushions and protects surfaces against scratching and chipping
- Fabric/matting keeps items in place, by gripping both sides
- Non – adhesive
- Odourless
- Easily sewn and cut to shape or size with scissors
- Available in a range of attractive colours
- Washable @ 40<sup>o</sup>C
